

SOUTH FLORIDA HOLISTIC DANDELION MODEL

*Above please find the South Florida Holistic Dandelion Model. My reason for developing this model in 2012 was to support a multi-jurisdictional/multi-institutional operating model when introducing the City of Miami, City of Miami Beach and Miami-Dade County to the Rockefeller Foundations' 100 Resilient Cities Challenge. Since then, my colleagues and I have used it to help develop a visual structure to complex adaptive systems in support of collaborative development and programming.
